## SUFFERING?

Arthritis • Gout • Reflux • Pain  
Fibromyalgia • Weight Gain

### You may be acidic!

Acid may contribute to over 200 diseases. Reduce acid with Eko Crystals

**Get rid of Acid and get healthy!**

**Get Eko Crystals Special \$89.95** (+p&h \$9.95)

- 60 sachets
- BPA Free Bottle
- Eko Litmus (100 pack)
- Magazine

### Pain Free Living

"...I have had Osteoarthritis for 40 years... two back operations... calcification in my feet, hands, neck and back, my hips and spine are fit for a wheelchair... some days the pain is terrible...

Karin

Then I started drinking Eko Crystals and I feel better than I have for ten years... I have more energy and I am sleeping better, plus I have lost 6 kilo's and I have done nothing different but drink water with Eko Crystals in it..."

### Thanks Mum!

"Have been using Eko Crystals for 4 weeks and have so much more energy for my 3 kids. I'm feeling better inside and out - my skin is clear and glowing. I'm sleeping soundly. My mornings were a struggle with back pain but this is starting to ease. I'm so glad my mum told me about this."

Tanya

### This Stuff Is Great

"Eko Crystals is the best thing that I have come across to help with Fibromyalgia, Osteo-Arthritis, Chronic Fatigue, GORD and MCS... plus my blood pressure has gone down and weight is starting to drop off with NO significant changes to my diet or exercise. This stuff is GREAT! Thank you all so much"

# Get Rid Of Acid, Get Alkaline & Get Healthy

Determining whether your saliva is alkaline or acid is important in determining the state of your health. To function at optimum capacity, the internal body environment must remain as close as possible to neutral. Acid/alkaline measurement or pH, ranges from 0-14 with 0 being the most acidic and 14 the most alkaline. 7 is neutral, neither acid nor alkaline but for good health we must be slightly alkaline at around 7.4.

Most people today have an acidic system because of diet, medications, stress, excessive activity and environmental toxins. The more acidic our system becomes the more our body becomes out of balance which leads to sickness and disease. High acid levels in the system can be related to over 200 diseases.

The continual intake of acid food and drinks allows acid waste to build up and is very difficult to eliminate. Drastic changes need to be made to bring more alkalinity into the body.

An acid body tends to age prematurely, skin, nails and hair also suffer the ravages of an overly acidic lifestyle. Weight is easier to put on and significantly more difficult to shift. Health in general is compromised and will make its mark on the external appearance.

Using Eko Crystals is an easy way to reduce acid, become more alkaline and get healthy. Eko Crystals will help dislodge and neutralise acids that have been embedded deep within tissues and may have been stored for years causing many health problems and premature ageing.

# Eko Health & Acidic Conditions

## Acid & Gout

The most common complaint for gout is that which affects the big toe as the pain can be excruciating. Excess uric acid is unable to be eliminated by the body when gout is present and in order to protect the blood from these high acid levels, uric acid crystals are formed and deposited in the joints, mainly fingers and toes.

Some gout attacks can last for five or six days and can be managed to some degree with medication. However this does not get to the root cause of it and recurring attacks can occur. As the cause of gout is excess uric acid, if acid levels are reduced the pain and discomfort of gout attacks will also be reduced and in some cases disappear altogether.

The drinking of mineralised alkaline water can make a big difference to gout and the pain in some cases can be relieved in a matter of a day or two. However, in order to have continued relief and reduce the amount and severity of gout attacks, acid must be reduced daily. Eko Crystals will help to keep acid levels down and therefore help reduce and in many cases eliminate the pain of this most debilitating condition.

*I had bad tendonitis in my elbow with constant pain. Since taking Eko Crystals the pain started easing and... had totally gone within 8 weeks. My husband has bad gout and is on medication constantly but got immediate relief the first day of taking Eko Crystals... When he forgets to drink the water his gout returns... he's got to drink it to be pain free. Karen*

## Acid & Ageing

Alkalinity seems to be the dominant factor for cultures known for longevity. In comparison the most common thread in western culture is that most people are highly acidic, hence the high incidence of premature aging, disease and in many cases early death. An acid body tends to age prematurely, skin nails and hair also suffer the ravages of an overly acidic lifestyle. Weight is easier to put on and significantly more difficult to shift. Health in general is compromised and will make its mark on the external appearance. The process of ageing which starts from the very beginning of our life is the accumulation of non-disposed waste products. This accumulation of acid waste can only be disposed of through consumption of alkaline forming food and drinks.

Harald Tietze in his book *Youthing* has stated that "By drinking alkaline water, the aging process can be reversed and wastes can be reduced in the long-term to a level of a much younger person." Alkaline water will help to neutralise harmful acids quickly and effectively and allow them to be flushed out by the blood via the skin, kidneys and bowels. Eko Crystals, contains a high percentage of alkaline minerals (calcium and magnesium) as well as many trace minerals which are essential in order to stave off the ravages of time and help us to lead a fully active and youthful life well into old age.

*I have used Eko Crystals for 12 months, it's a marvellous product. I suffered severely with Polymyalgia and Arthritis and from using Eko Crystals it has gone into remission. When my pH reached 7.2 I stopped using it and my health declined, so I began using it again and my health and blood tests are normal. Thanks for a wonderful product that works. Judith*

# Eko Health & Acidic Conditions

## Acid & Arthritis

Osteoarthritis which is the most common form of arthritis, usually affects elderly patients, however some forms can affect people from all age groups including children.

An acid body pH puts you at risk for developing some form of arthritis at some stage of your life, so it's essential for everyone to reduce acid levels before this painful disease can get a hold on you. If you already have arthritis it is even more imperative for you to reduce acid levels in order to improve quality of life and in some instances get your life back. Increase your intake of alkaline forming food and drinks and notice the difference. The more alkaline you become the more relief you'll get as your body starts to rebalance and function better.

Osteoporosis is also related to high acid levels in the body as the acid eats into bone causing loss of bone mass. Calcium is leached from the bones in order to stabilise blood pH that is becoming more acidic. Calcium leached from the bones can also become calcified and become deposited in joints and bone surfaces leading to Osteoarthritis as well as Osteoporosis.

Reducing acid and becoming more alkaline is the key for arthritis sufferers as it will help reduce pain and in many cases alleviate it all together. Eko Crystals is an easy way to reduce acid as many people have discovered.

## Acid & Reflux

Excess acid can contribute to over 200 diseases and the sad fact is that most people don't realise how this excess acid is contributing to their health problems, weight gain and reflux.

Gastroesophageal reflux disease (GORD) or acid reflux, is a common symptom of today's lifestyle which can be very debilitating. The continual intake of mainly acid forming foods, pollution and stress can lead to an imbalance of the pH of the body, which can also lead to many diseases including reflux and other digestive problems. When too many acid forming foods are consumed, the stomach can't digest them fully and turns these undigested foods into acid waste. As the acids build up in the stomach, spasms and gas is formed causing pain and discomfort. This gas can then force the valve between the stomach and oesophagus open allowing acid to be leaked or refluxed back into the oesophagus causing a burning sensation in the chest or throat called heartburn. This acid reflux can sometimes be tasted in the mouth.

A simple change in diet and the type of water you drink can make all the difference to a reflux or digestive problem. By including alkaline water daily into your diet and changing to more alkaline-forming foods, reflux and the pain and discomfort it can cause can be relieved once and for all.

## Acid & Urinary Tract Infections

Even though men can get bladder and kidney infections they seem to be more prevalent in women. It is essential that the vaginal area be kept clean and fresh at all times in order to minimize the risk of frequent bladder and kidney infections.

These infections also known as UTIs (urinary tract infections), can be very debilitating due to symptoms such as burning sensation when urinating, pelvic pain, frequent need to urinate with the inability to urinate fully and blood in the urine. It is important to look after both bladder and kidneys and protect them from bacterial infection. If symptoms in either bladder or kidneys persists antibiotics may be needed.

Most women who are prone to frequent bladder and kidney infections recognise the symptoms very quickly. The persistent pain or throbbing in the lower back often accompanied by sweating, is a classic symptom of kidney infection and must be dealt with immediately. Women who are prone to infections will find that these problems can be reduced dramatically and quickly when they start alkalinizing their body and drinking plenty of alkaline water. Once symptoms have been recognised, the drinking of alkaline water at half hourly or hourly intervals will go a long way towards stopping the infection in its tracks and alleviating the pain pretty quickly.

## Acid & Weight Gain

Excess acid and toxins are absorbed into the fat cells to protect the organs. As more and more acid forming foods are consumed the fat cells enlarge. The introduction of alkalinity to the body means that the stored acids are neutralised (they are now neutral salts) and can be released safely into the bloodstream, without compromising the pH of the blood. As these acids and toxins are released the fat cells start to shrink.

Dr. R. O. Young has said "fat is not a food issue, it is an acid issue". Unless you take steps to neutralise and eliminate acids you will always have difficulty reducing your weight and body fat. Introduction of alkaline to your body resulting in a decrease of acid levels can reverse the downward spiral into ill health, obesity and aging.

The WaWa Flush the Fat weight loss program developed by Eko Health is based on neutralising acids in the body through a comprehensive alkaline program. It's easy to do and literally helps to flush fat from the system by flushing the cells throughout the day with alkaline minerals. As the acids in the fat cells are neutralised they are released into the bloodstream to be flushed out of the system through the kidneys, bowels, lungs and skin.

includes conducting gel normally **\$14.95**

- Targets fat areas • Celulite removal • Slims legs and arms • Tightens the skin • Improves blood circulation • Pain relief

*I have had Osteoarthritis for 40 years... two back operations... calcification in my feet, hands, and spine... some days the pain is terrible... I started drinking Eko Crystals and I feel better than I have for ten years... I have more energy, plus I lost 6 kilo's and... done nothing but drink water with Eko Crystals... I found my answer to a pain free existence... Karin (RT, Dip of PC, GRM)*

Karen

*I have been using your wonderful product for 10 weeks. No more acid stomach burps, that troubled me for YEARS! Today I went for my annual check up regarding my kidneys. The doctor wanted to know why the... remarkable improvement. He told me: Whatever you are doing, keep it up. Thank you so much for such a simple yet amazing product. Ton*

Ton

*I was in agony with bladder infections and inflammation for years. I was always at the doctors, but nothing seemed to work. I stopped taking antibiotics when I started taking Eko Crystals... within 6 weeks the pain had gone... Even my arthritis and tennis elbow has improved and I just feel better with health over-all. Thank you for Eko Crystals... Maureen*

## Acid & Fibromyalgia

Fibromyalgia is a painful and debilitating condition which can often lead to depression. Continual pain all over the body leaves the sufferer desperate for relief as even the smallest amount of movement can cause excruciating pain and exhaustion.

There is relief! Fibromyalgia is a build-up of lactic acid in the muscles. This occurs because the mitochondria within the cells (little factories that produce energy) are not functioning properly and are therefore producing energy anaerobically (without oxygen). Athletes know only too well the pain of lactic acid build-up through strenuous exercise, however once they stop exercising the pain goes away very quickly as their energy system returns to aerobic (with oxygen). The fibromyalgia sufferer continually produces lactic acid because they are creating energy through glycolysis which means they use sugar instead of oxygen. This is called anaerobic energy and produces lactic acid.

When we are younger our cells work well and make energy properly. As cell function declines they start producing lactic acid and other inflammatory by-products. This changes the pH (acid/alkaline levels) in the fluid around cells. As fluid around the cells become more acidic energy production is compromised and the mitochondria does not function properly leading to lactic acid build-up and pain. If lactic acid is causing the pain a reduction in acid will reduce pain. Alkaline minerals will neutralise acid. By drinking plenty of water that is alkalisied and mineralised will quickly reduce acid in the body. Once the pain has eased it is important to look at diet because most people today eat too many acid forming foods and not enough alkaline forming foods. Simple lifestyle changes can make a huge difference. As it's difficult to adhere to an alkaline diet, drinking water with Eko Crystals is an easy option and can greatly help reduce acid levels which is very beneficial to the fibromyalgia sufferer and athletes.

Claire

*Eko Crystals is the best thing that I have come across to help with Fibro, Osteo-Arthritis, Chronic Fatigue, GORD and MCS... plus my blood pressure has gone down and weight is starting to drop off with NO significant changes to my diet or exercise. This stuff is GREAT! Thank you all so much, Claire*

Tanya

*I have been using Eko Crystals for 4 weeks and I have so much more energy for my 3 kids. I'm feeling better inside and out - my skin is clear and glowing. I'm sleeping soundly. My mornings were a struggle with back pain but this is starting to ease. I'm so glad my mum told me about this - not only am I benefitting, but my kids are too! Thanks Eko Crystals. Tanya*

Annabella

*Although it's only two months since using Eko Crystals, I feel a sense of wellness. I suffer Fibromyalgia and am grossly overweight. In two months I have lost 13kg and went from a size 24 to a 20 and my body manages the pains much better. I am simply delighted with the outcome, YES you have a totally devoted customer! Annabella*

## Anita Wdowiak Director - Eko Crystals

Dear Reader,

I have spoken to many of you on the phone over the last few years and feel that I know you well. My husband Don and I developed our Company about 10 years ago and are glad to say that we have many happy customers. I have recently written a book called Queen of TV and Me. This book is about meeting Oprah Winfrey. She inspired me to write an autobiography of my life over the last 35 years and subsequently became part of my own story. I am now 70 and I think if you are over 40 and female you will have had some similar life experiences and will relate to some of the things that happened to me, my husband Don and our family. It is written like a novel and I have been told that it is interesting, thought provoking and funny. The hard copy is available on our website or you can buy on Amazon Kindle.
